

Project Initialization and Planning Phase

Date	29 September 2026
Team ID	SWTID-2026-7674
Project Name	AI FAQ Assistant API
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to users of the AI FAQ Assistant API. A well-articulated customer problem statement allows the team to identify a practical solution for users who need fast, accurate and accessible answers to frequently asked questions.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A user or developer needing quick information.	Get an accurate answer to a frequently asked question through an API.	Manually searching different FAQ pages takes time.	Information may be scattered and difficult to access quickly.	Frustrated and uncertain about finding the right answer.
